szabadidős tevékenységekről

This is Mary Jones. She is an accountant. She works for a big multinational company. She works everyday from 9 am to 5 p.m. She is married and she has three children. She doesn't have much free time. After work she cooks dinner for her family, she does the cleaning, she does the washing, she does the washing up and she does the ironing. At weekends she doesn't work, she does the shopping together with her family. In her free time she likes gardening.

She does the gardening generally on Sunday. She likes reading, too. She doesn't like silly films on TV. She prefers films and plays but she has no time to go to the cinema or to the theatre. She goes swimming three times a week before work because after work she doesn't have much time. She generally goes abroad in the summer with her family.
